- For orders involving a third party dyer, Battenkill provides order coordination & management, and additional quality assurance screen and final rinses as needed.*
- Color Palette Development services are available. Schedule a 1:1 call with our product development team to discuss colors, themes and ideas and we'll create a palette just for you and coordinate your order.
- We have an existing palette of in-house dye colors to choose from. Please note that colors may appear differently depending on monitor and screen settings.
- Color sampling or matching is optional for dye orders; color development and sampling with any of our dye methods does require additional charges.
